

### President's Message

Dear Friends,

A lot has happened over the past two weeks.

We mourn the loss of yet another fellow Rotarian Burjor Poonawala and Late Rtn. Dicky Chothia's wife R/anne and active Inner Wheeler PP Zarine Chothia. I wish their families strength during these trying times. May peace be upon them.

Our Rotarians have made us proud on many fronts. I congratulate Rtn. IPP Ramesh Narayan, Rtn. Pradeep Chinai, Rtn. Vikash Mittersain, Rtn. Sanjiv Saran Mehra, Rtn. Kalpana Munshi, Rtn. Shekhar Bajaj and Rtn. Suresh Agarwal, for their individual achievements in various fields.

We have two new members join our Club - Rtn. Manish Sampat and Rtn. Puneet Chhatwal, a warm welcome to both.

We are nearing our major Fund Raising event – Dil Se. We hope to receive maximum participation and extend your support in making this a fabulous event.

We are also gearing towards the Diwali Night celebrations; please do join us for this festive get-together. For registration contact Rashmi at the Rotary office.

Thank You

**Rtn. Vijay Jatia,**  
**President**

Rtn. Pranay Vakil, Co-Founder, Knight Frank India & Chairman Praron Consultancy India Pvt. Ltd.

## CAPITAL GAINS

Pranay Vakil's career history is steeped in real estate. He laid the foundation stones of international property consultants Knight Frank India. Even since quitting in 2012, he has remained a media darling and often been quoted on a variety of subjects. Chairman of Praron Consultancy India Pvt Ltd since 2012, he has shared his views on Mumbai's real estate prices in the fast lane to creating demand in not just tier II cities but tier I cities too

(through second-time buyers). So when Vakil spoke at Rotary's September 25 meeting, everyone listened. After all, land is currency.

Referencing iconic filmmaker Raj Kapoor's movie Kal, Aaj aur Kal, Vakil presented listeners with India then, now and tomorrow. Vakil chronologically took the audience through a vivid trip through India's real estate scenario.

Vakil spoke to a packed hall at The Taj Mahal Hotel on September 25

Today's Speaker : **RISHABH SHAH, Founder and President, IIMU**

### Next Week's Speaker

Dr Harold D'Costa,  
CEO, Intelligent Quotient  
Security System.....P12

President Vijay Jatia and Rtn. Pranay Vakil

He said it was the rampant corruption of the past that had created hardship in the availability and affordability of housing in India for the longest time. Vakil shared his experience of visiting Pune and noticing the glaring mismatch of demand and supply in the market.

In comparison, today, with reasonable political stability, adequate liquidity in the markets and with inflation under control, a lot of development in terms of housing and infrastructure was being seen all over the country in general and in Mumbai in particular.

Vakil then touched upon the main players in the Real Estates, RERA and REIT. The Real Estate (Regulation and Development) Act, 2016 is an Act of the Parliament of India which sought to protect home-buyers as well as help boost investments in the real estate industry. Today, apart from West Bengal, 90 per cent states have adopted RERA, he said, however there was an urgent need of monitoring and regulation.

A real estate investment trust (REIT) is a company that owns, and in most cases operates, income-producing real estate. Vakil explained how people wanted to buy ready flats as there was no GST on ready flats as opposed to the ones being constructed; that was the shift in demand.

Demonetization had also had its effects on real estate. According to

Vakil, the trend of EMIs led to the difference between people renting and people buying houses. After the three tsunamis, said Vakil, there was again a fall in demand for housing. He attributed this trend towards the wait-and-drop situation where buyers in anticipation of a fall in prices tomorrow, tend to wait to invest.

The buyers often sat on the fence mainly due to their lack of confidence in investing in property, an anticipation in the fall of prices and last but not least, interest rates. Foreign investment too was cautious along the same lines as many found they had burnt their fingers dipping into Mumbai real estate investment, said Vakil.

Having briefly discussed the country's past and the present, Vakil took everyone back to the future. Talking about smart cities, he said, with 40 per cent population living in urban settlements, smart cities would be of no help without smart infrastructure. Therefore, it was necessary to generate employment and improve the quality of life. He referenced the McKinsey Urbanization Reports during his talk. The demand for REIT would eventually increase, he said, especially from IT sectors. It would be more like a mutual fund in rental properties and would soon be an income-earning asset. There was a major change in which projects funded with REIT were falling in place.

Rtn. Mahesh Khubchandani asks a question

Rtn. Sitaram Shah asks a question

Rtn. Kamal Bulchandani asks a question

Rtn. Sunita Mandelia asks a question

Rtn. Ashok Jatia asks a question

**The RERA, despite its hardships , was beginning to provide a level playing field as it had increased transparency.** If the act worked as planned, it would increase domestic and foreign capital. Vakil also saw a Trump Effect where buyers were now insisting on a Rupee Contract rather than a Dollar Contract.

Lastly, Vakil touched upon the ever-increasing use of technology in housing and investment. With advanced knowledge in science and technology, engineers could now show us the view from a 22 floor building even before the building was constructed. With the use of drones, satellite technology, geo-tagging, 3D printing of buildings, the

world was headed to a better place in creating a virtual reality.

Addressing a question on REIT, Vakil exclaimed that it was saddening that REIT was not happening in India unlike abroad; he spoke on REIT for investment in infrastructure as against housing space.

About the status of the Bombay Rent Act, Vakil answered that it provided for the redevelopment of the building and extra FSI after rehousing but the tenants had to collectively be part of it. Vakil also said that, according to one statistic, there are about 88 thousand billionaires in India and 10 thousand apartments with a price minimum of Rs.

5 crore. How many of the billionaires would buy these, he asked. There are no fresh purchasers in the market.

One of the members drew attention to the ever-increasing prices of housing and feared that the lower strata population will be pushed to the periphery. But Vakil said he was pretty sure that smart cities, done with great planning, took into consideration everybody and the issue of rental houses was being addressed.

Vakil believed that there was minimum corruption at the Centre and hoped for it to percolate further. He pressed on the need for empirical planning to face the threat to affordable housing.

## 100% per cent attendance for the month of July

We congratulate the below members for 100 per cent attendance at the July meetings. We invite more to join us and hope to see a larger audience at the next meeting.

ANANDA YAAN

Spiritual sessions being conducted by Roma Nayan Mehta at Ananda Yaan - a day care centre for elders.

ROTARACTORS OF HINDUJA COLLEGE GO ON A HIKE

One of the biggest flagship events carried out successfully by the Team Club Service of RC Hinduja College, named as “Matheran Hike”, where attendees were taken to Matheran Hill Station with the motive of fun, enjoyment and forming bonds among themselves.

Around 77 attendees including club members and guests participated in the event. To make the hiking memorable, various activities were planned and performed such as a Scavenger hunt game; a confession game was played wherein attendees were asked to write down a confession on a piece of paper and these were later read out by the event Chairpersons. This enabled the attendees to know about themselves by the confessions written by others.

Since the response for the hike was

high, the attendees were mesmerized by the activities planned for them and also the arrangements done for them. This helped in receiving positive feedback from attendees and building up goodwill of the club.

LIFETIME WARRANTY,  
INCLUDING AIRLINE DAMAGE, NO QUESTIONS ASKED.

Presenting the Carlton Edge series, an exceptional business luggage range that comes with something unique: a Lifetime Warranty that also covers airline damage, no questions asked. Stylish, tough and supremely crafted, a Carlton Edge bag is indeed your partner for life.

The Lifetime Warranty covers:  
Manufacturing defects  
Airline damage  
Cracks and tears  
Accidental damage

Download the Carlton Edge App for all your travel needs.

ROTARACT CLUB OF H.R.COLLEGE SEEKS YOUR SUPPORT

Quicksilver is a 5 day programme where underprivileged students are given a platform to depict a country of their choice through dance, spelling bee, mascot and various other rounds. There is a severe absence of extracurricular exposure in public schools. The idea is to provide an opportunity to public school students for their holistic development and to make them competent.

The Rotaract club of H.R.College thus wishes to seek strong support in any form be it monetary, in kind or your graceful presence.

Stationary and prizes are the prime areas where we need a helping hand.

OCTOBER 9, 2018

CANCER AWARENESS PROGRAMME AT JAI HIND COLLEGE ON OCTOBER 3, 2018

A cancer education and awareness programme was conducted at Jai Hind College, Mumbai, on October 3, 2018. The event was attended by approximately 500 people. This was a joint initiative of the Rotary Club of Bombay (through the Cancer Aid Committee), Indian Cancer Society (ICS) and Jai Hind College (JHC) along with its young Rotaractors.

The initiative was actively supported by the Board of Trustees of ICS, as well as Jai Hind College Principal Dr. Ashok Wadia and his team. The event was curated and compered by Mr. Vinod Advani. The session was effectively chaired by our very own Rtn. Dr. Ian Pinto, eminent Cancer and Blood Specialist, and Vice Chairman of the Cancer Aid Committee of the Rotary Club of Bombay. The synopsis of his presentation is as follows: Cancer is an abnormal proliferation of our cells after they undergo a mutational change. It is the second-largest cause of death globally. The number of new cases and deaths due to cancer doubled in India from 1990 to 2016. In this time period, the incidence of breast cancer in India increased significantly by 40.7 per cent. Hence, prevention and early diagnosis are of utmost importance.

A significant percentage of cancer is caused by lifestyle factors like diet and tobacco use, both of which causes are preventable. A healthy lifestyle includes a nutritious diet, daily activity, limited alcohol intake and abstinence from tobacco and tobacco like products (ghutka). Early detection through screening like mammograms for breast cancer starting at age 40-45 years, pap smears starting at the age of 21 for cervical cancer and colonoscopy at 50 years old for colon cancer are some tests for individuals with standard risk.

Treatment for cancer has also greatly improved from older chemotherapy to newer targeted treatments that attack specific molecular targets in cancer cells. Immunotherapy to stimulate one's own immunity to attack cancer cells is available and has revolutionised treatment for cancer. In summary, cancer is preventable and curable if found early, and treatable if found late. There were many interesting questions that arose at this session like: What is the role of stress in cancer? What are the outcomes for patients undergoing cancer treatment? What are the methods to quit tobacco use? What is the risk of one getting cancer if a

family member has been diagnosed with the same? What is the role of immunotherapy in treatment of cancer? Some of the takeaways by the audience - a) quit smoking and all forms of tobacco including ghutka, b) reach out to doctors early with any problem, c) follow and share information on cancer screening with family and d) keep tabs with what tests need to be routinely done to prevent cancer.

As a follow up to this awareness program, RCB (Rotary Club Of Bombay) plans to kickstart a series of 10 breast cancer detection camps with provisions to screen a hundred women at each. For this, Rotary Club of Bombay has tied up with ICS (Indian Cancer Society) for camps to be conducted at Shree Mahila Griha Udyog.

SWACCHH BHARAT CAMPAIGN AT BHAVISHYA YAAN SCHOOL

A Swachhbharat Abhiyaan i.e Clean India campaign was conducted by the MCGM on the occasion of Gandhi Jayanti at the Ambedkar Municipal School in Worli, Mumbai. This school, along with four others, is part of our award-winning literacy programme Bhavishya Yaan.

FAREWELL TO THE MASTER PRINTER: BURJOR FRAMROZE POONAWALA

The mention of Burjor Framroze Poonawala's name among veteran Rotarians invariably invoked responses of "a great sense of humour" and "he was so witty", to describe him.

The 'Master Printer' bid a final goodbye to family and friends on October 3, 2018. He was born on May14, 1934. He and his company, Commercial Art Engravers, received many awards for excellence in printing from various organisations including the All India Printer's Association. An eminent and celebrated member of the Bombay Master Printers Association, he had joined the Rotary Club of Bombay in 1964.

He always spoke admiringly of Rotary's four-way test and the impact that it had on his

life. Another aspect of being a Rotarian that was dear to him was the discipline that was enjoined and followed.

Poonawala's life traversed the journey of India in the pre-Independence and post-Independence phases. The experiences over the decades in the work that he so passionately loved and the life and people he observed with a humorous but gentle twinkle in his eye lent a rich and varied perspective to his conversation. He was also an avid traveller.

His beloved wife Arnavaz's passing away earlier this year affected him deeply. He leaves behind daughter Shernaz, son Khurshed, daughter-in-law Meher, and grandchildren Lyla and Rishad. May his soul rest in peace.

# A SOUTH AMERICAN ADVENTURE

**Rotaryanne Jaya Prasad writes about IPP Rtn. Ramesh Narayan**

IPP Rtn. Ramesh Narayan's idea came to fruit after a year-long effort last month. During his term, Ramesh had suggested sending an under privileged student from BY alumni abroad under the Rotary International Student Exchange Programme. Towards this, he had constituted a Committee spearheaded by Rotarians Peter Born and Homi Katgara.

The chain of people that came together to make this happen is a testimony to what Rotarians can and do achieve, every day. Right from his selection process to BY alumnus Vedant Kadam's eventual farewell, the process had as many twists and turns as a whodunnit.

The criteria for selection had been tough: the candidates had to be no more than 19 years of age, their parents had to be willing to send them overseas, their scholastic record had to be exemplary and, of course, the candidate had to show a positive attitude and the maturity to undertake such a trip.

It's no surprise that Vedant's application stood out from all others. He is a topper from the 2014/15 BY batch and is now pursuing Electrical Engineering in Atharva College in Mumbai. His elder sister, also from NM Joshi Municipal School is studying to become a Chartered Accountant. I assisted him in preparing for his interview with the Committee Members. Rtn. Peter Born and Rtn. Homi Katgara would be meeting five BY alumni from

each of the BY schools. After a review, Vedant was the candidate agreed upon by them and selected by the Committee. Next step: an interview with Rotary District 3141 Officials Kamlesh and his colleagues.

Before meeting them, Vedant was required to prepare enough to showcase a sound understanding of India and be well-versed with answers to nearly a hundred questions. Additionally, he familiarised himself with the booklet on Rotary International, details on the Youth Program, Rotary Movement, and of course Rotary Club of Bombay.

In his meeting with Kharade, Vedant answered all questions confidently. It would not be out of place to mention here that Vedant continues to do very well in his studies and in recognition of this, RCB extended his scholarship last year as well as this year, to defray the expense of his college fee.

With candidate in hand, Kamlesh and the District looked at the countries with which our District is in regular touch for such Exchange Programmes.

As this is an Exchange Programme, it entails a reciprocity from an RCB member to host a student from the Rotary Club in the country where Vedant would be going. Rtn. Peter Born and his wife Erica readily offered to host the Exchange Student at their home. Many, many thanks, Erica and Peter. But for your offer of hospitality, Vedant's trip would not have fructified.

## Prepping Vedant

At first, it looked like he might go to Germany. Erika invited Vedant over to guide him on table manners, social and cultural etiquette etc. Additionally, she introduced him to continental fare. She made him clear the table and wash his own dishes, which would be expected of him in homes overseas. Further, he was briefed on how to run washing machines, dryers and other electrical gadgets used these days.

## Passport Saga

As Vedant did not have a passport, he needed help with the same. Rtn. Framroze Mehta and his office helped with all the paper work. Rtn Ashok Jatia and Rtn. Peter Born kindly joined me and my husband Rtn SV Prasad to meet a senior bank official to provide an affidavit to expedite issue of passport under Tatkaal scheme. We were unsuccessful but thanks to PP Ramesh, Ashok and I met a senior police official who readily furnished us with the same. The next hurdle came in providing proof of address: Vedant's home is undergoing redevelopment and his family is staying in a rented place. So, Prasad and I accompanied him to State Bank of India to provide proof of address as required by the Passport Office. Thankfully, he and his father had held bank accounts in that same branch for quite a few years. The bank manager helped, albeit reluctantly.

After many visits to the passport office and much back and forth, the prized document came through: the passport was in hand. But for the help of Rotary

Club of Bombay and its members, and so many of us being actively involved, one realised that it is so tough for ordinary people to get a passport. This is a sobering thought.

## Enter Brazil

At this point, Germany was ruled out due to scheduling problems and Brazil stepped in. After the Rotary District and the Club in Brazil confirmed, dates were firmed up, Vedant took permission from his college for the trip. Dates had to be convenient on both sides of the ocean.

With the sponsorship and Rotary letter in hand by September 10, the pace really picked up. It was decided that Vedant would leave by September 18 and be back by October 12, in time for his exams. His ticketing and visa were done within a week.

## Vedant's final briefings

Peter – who was going away for his annual vacation the next day – helped Vedant make an online visa application and accompanied him to the Brazil Consulate. Rtn Peter spoke with consulate officials who were supportive in sending an underprivileged child overseas. Thanks to Rtn. Gul Kripalani putting in a word and advising the Consulate Officer to be met, the visa got issued quickly.

Simultaneously, Rtn. Homi Katgara and

his office had been looking at flight options. Brazil is quite far and therefore cost turned out to be an important consideration. President Vijay Jatia and the Board needed details in order to consider approving the same.

In the midst of packing and getting ready to leave, Vedant was being continuously briefed by Rtn. Homi Katgara at his office, Ashok Jatia at his office and constantly over the phone, by me.

The visa came through on the September 17 and Vedant left on the night of September 18.

Hats off to RCB and its Members Rtn President Vijay Jatia readily extended a helping hand at every stage, including providing the necessary introductory letters. To augment the funds given to Vedant by RCB, Rtn Ashok Jatia gave him some US Dollars as pocket money to spend in Brazil and Homi gave him some UAE Dirhams for food and refreshments during his transit stopover at Dubai airport on his way to Brazil and back. Last but not the least, a big thanks to my husband SV for being supportive all the way.

## District and its team

Kamlesh and his team in our Rotary District have continuously extended help and support. This has been

noteworthy as this has been a long drawn out exercise stretching almost a year now.

On the eve of Vedant's departure, Kamlesh directed him to come over to District Office and Kamlesh and his colleagues gave Vedant Rotary pins, badges, jacket, and India Flag etc for Vedant to carry to Brazil to keep the country and Rotary India flag flying high.

## In Brazil

At the time this was written, Vedant was in Brazil and excitedly sending pictures (including with fellow Exchange Students from other countries via Whatsapp of the functions he was attending and the local trips he was making. "My host mother is toooooo good" was one of his messages.

This once in a lifetime trip will surely make Vedant a more mature, rounded person.

## BHAVISHYA YAAN EYE CHECK UP

The Rotary Club of Bombay invited the Aditya Jyot Foundation to conduct eye-testing for the children at our Bhavishya Yaan Program's GK Marg School. Although most kids were found to have healthy eyes, 10 were diagnosed with problems. All these 10 kids will be treated free of cost and will be given free spectacles.

ROTARIANS MAKING WAVES

The India Chapter of the International Advertising Association launched a coffee table book on Print As A Powerful Medium. The event was very well attended by the media. Two of our very own members IPP Ramesh Narayan President IAA India Chapter and Rtn. Hormusji Cama Chairman Audit Bureau of Circulation were involved in the formal launch of this collector's item.

Congratulations to IPP Ramesh Narayan

Congratulations IPP Ramesh Narayan! The work done by you and your team in 2017-18 has been recognised by Rotary International.

IPP Ramesh Narayan

Congratulations Rtn. Vikash Mittersain

Congratulations on being re-elected to the Executive Committee of CCI.

Rtn. Vikash Mittersain
