**IMAGINE
ROTARY**

13th November, 2022

SEEING WHAT ISN'T THERE is a power that only humans possess. The source of human power is neither muscle nor mind but models. I had made a reference to mental models in one of my earlier pieces in this bulletin.

TO FRAME IS TO MAKE A MENTAL MODEL THAT ENABLES US TO SEE PATTERNS, PREDICT HOW THINGS WILL UNFOLD AND UNDERSTAND NEW SITUATIONS. Frames guide our decisions and the results that we attain. Some of the greatest breakthroughs in humanity have been achieved through framing. How the Wright brothers, with no formal physics training gave us the first flight with exemplary framing. How deploying the #MeToo hashtag on Twitter reframed the perception of sexual assault from shame to empowerment.

It is my view that framing is not just a way to improve how we make decisions in the era of computers and algorithms but will be a matter of survival for humanity in a time of

**PRESIDENT VINEET BHATNAGAR'S
ARTICLE CONTINUES ON THE NEXT PAGE**

PRESIDENT'S MUSINGS
EVERY WEEK ON: Spotify
CLICK HERE TO TUNE IN NOW

social upheaval and machine prosperity. We can turn framing from a basic feature of human cognition into a practical tool that we can use to make better decisions.

Framing is so fundamental to human cognition that even those who study the workings of human mind started focusing on it only recently. Most of the work was looking at the importance of sensing and memory but as people have become more aware of the need to improve decision making the role of frames which aids choices and action has become centre stage.

There is no such thing as a “bad” frame but there are surely cases of misframing. In 2008, Nokia led the world in mobile phones and when Apple introduced the iPhone, few thought that it would take off. Nokia’s frame came from the conservative telecom industry whereas Apple came from breathlessly innovative computing industry that valued ease of use despite being pricier. The Apple frame turned out to be a better fit for consumer needs and it now dominates the market.

A human mind can see the world not as it exists but

as it can be. We do this by understanding, rejecting or accepting frames. **THE FRONTIERS OF OUR IMAGINATION ARE THE BOUNDARIES OF OUR WORLD. HUMANITY IS NOT LOCKED INTO ONE REALITY BUT CAN ENJOY ANY IT DECIDES TO CREATE.** The power is within us, by how we can conceive of and conceptualise our world and lives – all that we are and all that we hope to be. We thrive through co-operation but we will survive only as framers.

Literary Diwali camp for Lighthouse

Our Diwali Literature camp 2022 focussed on diction and confidence building. Activities to encourage these were conducted which ended with short performances.

A nature walk to CPRA GREENS was a new concept introduced this year and we are grateful to parents for their support.

Children are compared to beautiful flowers and our senior and junior kindergarten children looked adorable as pretty flowers with special headgears made by parents for the performances.

It was delightful to see them dance, sing and talk about common flowers.

We all have grown up listening to fairy tales and a common favourite, *The Wolf and the Seven Goats*, was enacted by children of classes 1 and 2.

Children played games and activities based on the story.

The classic *Wizard of Oz* was shown to our kids of standards 3, 4 and 5. Children were thrilled to watch and read this magical tale and then enact three of their favourite scenes.

TREASURE ISLAND AND OTHER LITERARY GEMS FOR BY

Bhavishya Yaan students enjoyed a literature festival last week at the N.M. Joshi Marg School. Both primary and the secondary students prepared speeches and role plays and enjoyed performing them.

Parth, a 9th grade student, was the Master of Ceremony, who conducted the whole programme.

While the 5th, 6th, and 7th standards performed *The Blue Umbrella* by Ruskin Bond, secondary students shared their experiences on warm-up days, the benefits of the festival and the knowledge that they had gained, etc.

Students also participated in a role play on *Treasure Island*.

Assessment results were announced, and students were given prizes / medals.

This year, a donor gave away stationery items as prizes to the top three students of each class for their attendance, participation, and outstanding performance.

Also, the best narrator, actor, and consolation prizes were received by other students.

It was a happy and enjoyable occasion, and a fulfilling day for both students and teachers.

Legal awareness sessions were organised by Mumbai Suburban District Legal Services Authority for the senior citizens of three Ananda Yaan centres, an initiative of the Rotary Club of Bombay managed by Dignity Foundation.

Sessions on basic legal awareness and government schemes were delivered by Mr. Satish Hiwale, Secretary, Mumbai Suburban District Legal Services Authority. The programme was coordinated by Aileen Marques, Panel Advocate of Mumbai Suburban District Legal Services Authority.

At the first session on November 2nd, 2022, at 11 am at the Dr. E. Moses Road, Worli centre, about 70 women senior citizens participated. The *ajjis* found the session informative and they were happy to interact with Mr. Hiwale, a judicial officer.

The second session on November 3rd, 2022, at Byculla East at 3 pm, was attended by about 80 women senior citizens. The women listened patiently to session and asked their questions.

The third session on November 4th, 2022 at Mazgaon, saw the participation of about 55 women senior citizens and four male senior citizens. Quite a few participants brought their documents and sought legal advice from Mr. Hiwale and Adv. Aileen Marques.

There was a request from the participants to arrange educational visits to the local police station and courts. Accordingly, visits to three local police stations were planned.

We thank PN Satyan Israni for arranging these legal awareness sessions and police station visits for the senior citizens of the Ananda Yaan Centres.

Later last week, 12 women including senior citizens, visited Kalachowkie Police Station to understand the functioning of the police station.

New RCB dialysis centre under TRF's Global Grant

A new dialysis centre is being inaugurated in Charkop, on November 22nd, 2022, by Rotary Club of Bombay.

This dialysis centre is under the Global Grant of The Rotary Foundation in partnership with RC of Mumbai North End and RC Charlotte, USA.

This dialysis centre is supported by Mahansaria Group of our Rtn. Yogesh Mahansaria.

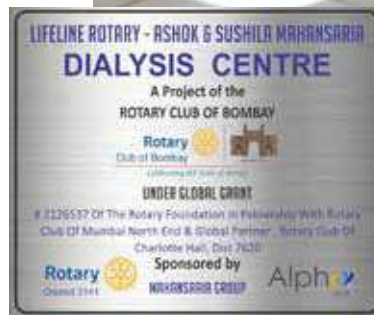

This is a 15-bed centre where Fresenius Kabi German dialysis machines have been installed. The project includes RO filter, beds and other moveable equipment and UPS batteries.

Dialysis will be conducted free of cost to needy patients. This centre has the best technicians, nephrologists, and nursing team, etc.

Generally, a dialysis cycle cost varies from Rs. 1000 to Rs. 2500, and a patient requires a minimum of two to three cycles a week. This results in an economic burden of nearly Rs. 12000 per month along with ancillary medication, doctor visits transportation and dietary requirements.

The new RCB Dialysis Centre is expected to provide a huge economic relief to the needy patients.

The project cost is Rs. 1.25 crore.

Healing hearts across India

Rotary Club of Bombay-CSR INDIA GRANT (Paediatric Heart Surgeries)

Every year, more than 200,000 children are born with congenital heart disease in India, barely 2% receive optimal treatment. Even today, rural India is without the facilities required to handle such cases. So, Rotary has been funding these paediatric heart surgeries for the past few years.

Rotary Club of Bombay has signed an MOU with Kokilaben Dhirubhai Ambani Hospital & SRCC Childrens Hospital (both are top hospitals with world class amenities, doctors and equipment) to fund the treatment of such children.

Hospitals hold medical camps across rural India and, through them, identify the children who need this medical care. They are then referred to various NGOs including Rotary.

Our partner hospitals have extended special, reduced pricing for this noble and life-saving project without any compromise on quality. The initial follow-up, post-surgery and discharge for the patient is also at no cost to the family.

Each hospital gets patients from all over the country. This includes children from Uttar Pradesh, Bihar, Madhya Pradesh, Gujarat, Kashmir, and Tamil Nadu to name a few. We have identified and operated on patients as young as a few days old up to the age of 18.

HOW ROTARY CLUB OF BOMBAY HELPS:

1. Arrange preliminary screening of the children to ensure that those selected are suitable for the required surgical procedure (Open Heart Surgery).
2. Arrange for admission, surgery, and discharge.
3. Rotarians and their partners visit children at

GRANTS

THE ROTARY FOUNDATION MONTH

NOVEMBER

THE ROTARY FOUNDATION HELPS CLUBS ACROSS THE WORLD EXECUTE PROJECTS THROUGH GRANTS. CURRENTLY, OUR CLUB HAS A CSR GRANT OF \$ 1,50,000 FOR CHILD PEDIATRIC SURGERIES.

Rotary Club of Bombay

rotaryclubofbombay.org

the hospitals and help in any way needed.

All documents of each patient are screened and, after due diligence, RCB gives the go-ahead for the surgery and payment is released for the same.

We expect about 100-125 children (from newborn babies up to age 18 years) to benefit from this project. The exact number will vary depending on how many category cases are referred to us. We plan to do all category cardiac operations and paediatric cardiac interventions like ASD/ VSD/ PDS device closures and balloon dilatations.

Through this grant, RCB will help mend hearts and bridge the gap for parents who are unable to raise funds for the full cost of operation for their children.

RCB: Aid Beyond Borders

RCB partners on international paediatric heart surgeries

Carly Ampurira: 6-month-old female child. Surgery: Intracardiac repair.

Sarah Kirabo: 2 and a half-year-old female child. Surgery: Intracardiac repair.

Elizabeth Ahumuga: 2-year-old female child. Surgery: Intracardiac repair.

William Kisenyi: 2-year-old male child. Surgery: Intracardiac repair.

Robert Kagwa: 1 and a half-year-old male child. Surgery: Intracardiac repair.

Florence Santa: 9-month-old female child. Surgery: AV Canal repair.

Ayan Kyeeyune: 2 years and 10 months old male child. Surgery: Intracardiac repair.

Jefferson Mulondo: 5-year-old male child. Surgery: ASD closure.

Rotary Club of Bombay in partnership with Society for Rehabilitation of Crippled Children (SRCC) Children's Hospital and the M&MA Foundation are working towards providing lifesaving surgeries to children from Uganda suffering from congenital heart disorders.

These children belong to financially-backward families that are unable to cover medical costs including medicines and surgical interventions as well as flights and travel. RCB, along with its partners, steps in to bridge the gap and provide

financial and other assistance to these families to offer lifesaving surgical interventions for children at no cost to the families. This provides the children with a second chance to live a long and healthy life.

So far, RCB has funded eight surgeries of patients from Uganda

at SRCC Children's Hospital with RCB's contribution of Rs 7,00,500/-. Each surgery was a success and patients have been discharged. Details of each patient is given above.

TRF transforms your gifts into service projects that change lives both close to home and around the world.

Dr. Anish Shah, Managing Director and CEO, Mahindra Group

Dr. Anish Shah joined Mahindra Group in 2014, as Group President (Strategy), and worked closely with all businesses on key strategic initiatives, built capabilities such as digitisation and data sciences and enabled synergies across group companies. In 2019, he was appointed Deputy Managing Director and Group CFO, with responsibility for the Group Corporate Office and full oversight of all businesses other than the Auto and Farm sectors, as a part of the transition plan to the CEO role.

Anish was President and CEO of GE Capital

India from 2009-14, where he led the transformation of the business. His career at GE spanned 14 years, during which he held several leadership positions at GE Capital's US and global units. He has diverse experience with global businesses beyond GE. As a strategy consultant at Bain & Company in Boston, he worked across multiple industries, including banking, oil rigs, paper, paint, steam boilers and medical equipment.

Anish holds a Ph.D. from Carnegie Mellon's Tepper School of Business where his doctoral thesis was in the field of Corporate Governance.
